Career Objective

Recent B.E. Computer Science and Engineering graduate with hands-on experience in full-stack development through internships and personal projects. I enjoy building scalable web applications, developing RESTful APIs, and solving real-world problems through clean and efficient code. I'm looking for an opportunity to apply my skills, learn from experienced developers, and contribute to building reliable software solutions.

Education

Sri Shanmugha College of Engineering and Technology, Salem B.E. Computer Science and Engineering	2022 – 2026 CGPA: 8.04
Krishnaveni Govt Girls Hr Sec School, Pallipalayam Higher Secondary Certificate (HSC)	2021 – 2022 81%

Technical Skills

Languages: Java, JavaScript, C
Core CS: Data Structures, Object-Oriented Programming, Operating Systems
Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Databases: MongoDB, MySQL
Tools: Git, GitHub, Postman

Experience

Aroopa Technologies Pvt. Ltd., Chennai <i>Software Developer Intern</i>	Mar 2025 – Sep 2025
- Developed backend modules using Node.js and Express.js following clean architecture principles. - Designed, developed, tested, and documented RESTful APIs using Express.js and Postman. - Collaborated with cross-functional team members to debug issues, optimize application performance, and deliver reliable software features.	

Projects

FeeHive	GitHub
- Developed a scalable full-stack MERN application to manage student fees, receipts, and financial transactions. - Implemented JWT-based authentication, role-based authorization, and secure REST APIs. - Designed MongoDB schemas using Mongoose and built a responsive React dashboard for efficient data management.	
ExpensioX	GitHub
- Developed a full-stack expense tracking application using the MERN stack. - Designed RESTful CRUD APIs using Node.js, Express.js, and MongoDB. - Built a responsive React interface featuring form validation and dynamic data rendering.	
EduReg	GitHub
- Developed an academic registration system using object-oriented programming principles. - Designed students, courses, and department entities with structured relationships. - Implemented course registration workflows including enrollment, prerequisite validation, and conflict detection.	

Achievements

- Winner of **Code at Christmas** – National-Level Hackathon.
- Solved 200+ Data Structures and Algorithms problems across LeetCode and HackerRank.

Certifications

- NPTEL – Deep Learning and Visual Computing
- NPTEL – Cloud Computing
- Novitech – Full Stack Development Training
